

CONTENTS

	Description of Chapters	Page No.
0	EXECUTIVE SUMMARY	
1	INTRODUCTION	1.1
1.1	Population	1.1
1.2	Vehicles	1.2
1.3	Review of Previous Studies	1.3
1.4	Scope of Work	1.4
1.5	Format of the Report	1.4
2	PROJECT DESCRIPTION	2.1
2.1	Existing System	2.1
2.2	Future Needs of Transport	2.1
2.3	Mass Rapid Transport System	2.4
2.3.1	Infrastructure	2.7
2.3.2	Rolling Stock, Traction and Signaling	2.8
2.3.3	Facilities	2.8
2.3.4	Property Development	2.8
2.3.5	Depot at Yamuna Bank	2.9
2.4	Cost Estimates	2.9
2.5	Construction Schedule	2.9
3	ENVIRONMENTAL BASE LINE DATA	3.1
3.1	General	3.1
3.2	Physiography	3.1
3.3	Geology and Soils	3.1
3.4	Ground water Hydrology	3.2
3.5	Water Quality	3.3
3.6	Forestry	3.4
3.7	Air Quality	3.6
3.8	Seismicity	3.10
3.9	Noise	3.10
3.10	Socio-Economics	3.14
3.10.1	Survey Design	3.15
3.10.2	Socio-Economic Profile of the PAFs	3.16
4	NEGATIVE ENVIRONMENTAL IMPACTS	4.1
4.1	Environmental Legislations	4.1
4.2	Impacts due to Project Location	4.2
4.2.1	Project Affected People (PAPs)	4.2
4.2.2	Change of Land Use	4.2
4.2.3	Loss of Forests/ Trees	4.4
4.2.4	Utility/ Drainage Problems	4.5
4.3	Impacts Due to Project Design	4.5
4.3.1	Platforms Inlets and Outlets	4.5

4.3.2	Ventilation and Lighting	4.6
4.3.3	Railway Station Refuse	4.6
4.3.4	Risk Due to Earthquake	4.7
4.4	Impact Due to Project Construction	4.7
4.4.1	Soil Erosion, Pollution and Health Risk at Construction Site	4.7
4.4.2	Traffic Diversions and Risk to Existing Buildings	4.8
4.4.3	Problems of Excavated Soil disposal	4.8
4.4.4	Dust generation	4.8
4.4.5	Increased water demand	4.8
4.4.6	Impact due to construction of Bridge on Yamuna	4.9
4.4.7	Impact Due to Supply of Construction Material	4.9
4.4.8	Loss of historical and cultural monuments	4.9
4.4.9	Impact due to Construction near Qutab Minar	4.9
4.5	Impacts Due to Project Operation	4.10
4.5.1	Noise Pollution	4.10
4.5.2	Water Supply and Sanitation	4.13
4.5.3	Refuse disposals and Sanitation	4.13
4.5.4	Pedestrian Issues	4.14
4.5.5	Visual Impacts	4.14
4.6	Impact due to Depot	4.14
4.6.1	Water supply	4.15
4.6.2	Sewage and effluent	4.15
4.6.3	Oil Pollution	4.15
4.6.4	Noise Pollution	4.16
4.6.5	Loss of livelihood	4.16
4.6.6	Impact due filling of area (Leachate)	4.16
4.6.7	Impact on river regime	4.16
4.6.8	Surface drainage	4.16
4.7	Epilogue	4.16
5	POSITIVE ENVIRONMENTAL IMPACTS	5.1
5.1	Positive Impacts	5.1
5.1.1	Employment Opportunities	5.1
5.1.2	Benefits to Economy	5.1
5.1.3	Quick Service and Safety	5.1
5.1.4	Less Fuel Consumption	5.2
5.1.5	Less Air Pollution	5.4
5.1.6	Carbon Dioxide Reduction	5.5
5.1.7	Reduction in Number of Buses	5.6
5.1.8	Saving in Road Infrastructure	5.6
5.2	Checklist of Impacts	5.6
6	ENVIRONMENTAL MANAGEMENT PLAN	6.1
6.1	Management Plans	6.1

6.2	Mitigation Measures	6.1
6.2.1	Rehabilitation and Resettlement	6.2
6.2.2	Compensation for the Land	6.4
6.2.3	Compensatory Afforestation	6.4
6.2.4	Draining of Water from Tunnel	6.5
6.2.5	Soil Disposal	6.6
6.2.6	Utility Restoration	6.7
6.2.7	Traffic diversion management	6.8
6.2.8	Noise Control	6.9
6.2.9	Vibration Control	6.10
6.2.10	Water supply and sanitation	6.10
6.2.11	Management plans for depot	6.10
6.2.12	Training and extension	6.15
6.3	Disaster Management	6.15
6.4	Emergency measures	6.16
6.4.1	Emergency lighting	6.17
6.4.2	Fire protection	6.17
6.4.3	Ventilation shafts	6.19
6.15	Epilogue of Environmental management plan	6.19
7	ENVIRONMENTAL MONITORING PLAN	7.1
7.1	Environmental Monitoring	7.1
7.1.1	Rehabilitation and Resettlement Programme	7.1
7.1.2	Afforestation and Ecology	7.1
7.1.3	Water Quality	7.2
7.1.4	Air Quality and Noise	7.2
7.1.5	Soil Conservation	7.2
7.2	Establishment of an Environment Division	7.2
7.3	Summary of Environmental Monitoring Programme	7.3
8	COST ESTIMATES	8.1

LIST OF TABLES

Table No.	Description of Table	Page No.
1.1	Population of Delhi Urban Area	1.1
1.2	Population in Delhi in 2001	1.2
1.3	Details of Vehicles in Delhi	1.3
2.1	Transport scene in year 2021	2.3
2.2	Load on Sections	2.4
2.3	MRTS Network Corridors	2.4
2.4	Types of Infrastructure in Phase-II	2.7
2.5	Metro and Rail Corridors Stations	2.7
2.6	Abstract of Cost	2.9
2.7	Construction schedule Phase-II	2.10
2.8	Completion/opening schedule	2.10
3.1	Properties of Over Burden Soil Strata	3.2
3.2	Physio - Chemical Characteristics of Soil	3.3
3.3	Depth of Ground Water	3.3
3.4	Chemical Analysis of Water Samples	3.4
3.5	Trees in corridors	3.4
3.6	Trees in corridor (length wise)	3.4
3.7	Emission Factor for different Vehicles	3.8
3.8	Emission factors Comparison	3.8
3.9	Air Quality in and around Project Site	3.9
3.10	Air quality at project site	3.9
3.11	Ambient Air Quality Standards	3.10
3.12	Noise levels in an around Delhi	3.10
3.13	Noise Levels in Delhi	3.12
3.14	Noise levels standards dB(A)	3.14
3.15	Land Requirements	3.14
3.16	Sample spectrum of PAFs	3.16
3.17	Sex wise distribution of family members	3.16
3.18	Age-Wise Distribution of PAPs	3.17
3.19	Religious Group	3.17
3.20	Caste Distribution of PAFs	3.17
3.21	Level of education among PAPs	3.18
3.22	Marital status of project affected people	3.18
3.23	Occupation wise distribution of PAPs	3.18
3.24	Family income of PAPs	3.19
3.25	Family Pattern of PAFs	3.19
3.26	Family size	3.19
3.27	Type of structure	3.20

3.28	Construction of structure	3.20
3.29	Ownership of structure	3.20
4.1	Affected people	4.2
4.2	Location and Area to be Utilized/ Acquired (M ²)	4.3
4.3	Change in Land use	4.4
4.4	Temporary and property land requirement (ha)	4.4
4.5	Loss of forest products	4.4
4.6	Station Planning Standards	4.6
4.7	Illumination at Different Locations	4.6
4.8	Noise Levels at the Platform in Calcutta/ Delhi Metro	4.12
4.9	Daily Water Requirement at Each Station	4.13
4.10	Water demands (m ²)	4.15
4.11	Sewage and effluent characteristics	4.15
5.1	Journey time	5.2
5.2	Vehicles in Delhi	5.2
5.3	Reduction in Vehicles	5.2
5.4	Reduction in Fuel consumption due to Phase II (2011)	5.3
5.5	Net saving on Fuel Expenditure (2011)	5.3
5.6	Reduction in Fuel consumption due to Phase I & II	5.3
5.7	Net saving on Fuel Expenditure due to Phase I & II	5.4
5.8	Estimated pollution load based on projected traffic 2011	5.4
5.9	Pollution load scenario based on traffic data	5.4
5.10	Reduction in air pollution levels in 2011 (for MRTS –II only)	5.5
5.11	Reduction in air pollution levels in 2011 (for MRTS I & II)	5.5
5.12	Cost and benefit of Baseline Project and MRTS	5.5
5.13	Check List of Impacts	5.7
6.1	Resettlement cost	6.3
6.2	Cost of Afforestation	6.5
6.3	Recommended tree species for Reafforestation	6.5
6.4	Department responsibilities for utilities	6.7
6.5	Traffic management plans	6.8
6.6	Reduction in Noise Level with barriers	6.9
6.7	Cost for Training Programme	6.15
6.8	Environmental Management action plan	6.20
7.1	Summary of Environmental Monitoring Programme	7.3
8.1	Environmental Costs	8.1

LIST OF FIGURES

Fig.No.	Description of Figure	Page No.
2.1	Bus, Metro and Rail Network	2.2
2.2	Project Layouts for phase - I	2.5
2.3	Projects Layouts for Phase - II	2.6
3.1	Air quality monitoring stations	3.7
6.1	Flow chart for water treatment plant (WTP)	6.12
6.2	Flow chart for Sewage treatment plant (STP)	6.13
6.3	Flow Chart for Effluent treatment plant	6.14

LIST OF ANNEXURE

Annexure No.	Description	PAGE NO.
2.1	List of Railway Stations	2.11
3.1	Questionnaire for Social Survey	3.21

ABBREVIATIONS

BIS	:	Bureau of Indian Standards
CBD	:	Central Business District
