The disbursement of power at different stations shall be dealt with individually under separate connections.

2. The power supply connection released for commercial activity shall be from the available DMRC power network, which is reliable having adequate redundancy. DG supply will not be made available. The power fed shall be from normal source without backup network. Applicant’s may however, provide UPS / Inverter at their cost if they so desire. Installation of DG set is not permitted.

3. Underground metro stations are already air-conditioned and hence separate AC for these are not required. In underground stations, installation of window / split AC are not permitted, in case of A/C requirement tapping of connection from chilled water line shall be given on chargeable basis, further work shall be done by Applicant. However, for elevated stations Applicant may provide AC at his own cost conforming to detailed specifications attached at Annexure-E.

4. DMRC will attempt to provide electricity at one point; Applicant is required to pay the cost of electrical works required for extension of power form DMRC panel / DB up to site on actual basis + DMRC service charges @15%. Alternatively, Applicant may also undertake electrical work for extension of power from nominated source under DMRC supervision and complying all codal provisions as listed in DMRC specifications, upon payment of requisite fees of Rs. 10,000/- per feeder (one feeder with energy meter).

   a) Supplying and laying including end termination of suitable size (rating suitable for allowable electric load) LT FRLS cable (from source to nearest point) as per standard specifications.
   b) Supplying and laying of meter box, pre-paid energy meter and MCB for extending the power. Pre-paid energy meters require periodic recharge if timely recharge is not done then electric supply is automatically disconnected.

6. Applicant shall extend power supply from this Meter box at his own cost. Please find attached list of approved makes and specifications to be complied for carrying out electrical works inside leased premises in Annexure-D. Applicant is also required to comply with necessary provision for fire safety in accordance with stipulations attached at Annexure-F. The work executed by Applicant shall be inspected by DMRC representative for ensuring compliance of specifications / stipulations of contract.

7. At the end of the contract (pre-mature surrender/termination, natural completion, etc.), all cable, pre-paid meter, connected software, etc. shall be sole property of DMRC. The Applicant voluntarily and unequivocally agrees not to seek any claim, damage, compensation or any other consideration whatsoever on account of time and costs associated, in making provision of electricity.

8. Mode of power supply: If Applicant desires they may seek temporary or permanent connection. Temporary connection is given for limited time i.e. 30 days.

9. Permanent connection is given after ensuring all safety compliance and completion of electrical and fire safety works in leased premises in all respect.

10. During tenure of temporary power supply Rs.100/- per week per KW or part thereof shall be charged over and above applicable tariffs.
11. In case of failure to convert, the temporary connection to permanent within stipulated time, temporary connection charge shall be doubled. Format of application for temporary and permanent connection and lists of documents required are attached at Annexure- A& B.
