The disbursement of power at different stations shall be dealt with individually under separate connections.

2. The power supply connection released for commercial activity shall be from the available DMRC power network, which is reliable having adequate redundancy. DG supply will not be made available. The power fed shall be from normal source without backup network, licensees may however, provide UPS / Inverter at their cost if they so desire. Installation of DG set is not permitted.

3. Underground metro stations are already air-conditioned and hence separate AC is not required. In underground stations, installation of window / split AC generally are not permitted, in case of A/C requirement tapping of connection from chilled water line shall be given on chargeable basis subject to availability of spare capacity with DMRC and DMRC reserve the right for releasing spare chilled water capacity to the licensee. BTU meter will be provided by licensee for charging the electricity of delivering tonnage to licensee by applying suitable conversion formula; the work regarding the air-conditioning which includes tapping the water from the DMRC chilled water pipe line, AHUs, FCUs and other necessary installation for air-conditioning shall be done by Licensee. Generally the operating timing of chiller at underground metro station is from 0800 hours to 2130 Hrs. However, for elevated stations licensee may provide AC at his own cost conforming to detailed specifications attached at Annexure-D.

4. DMRC will attempt to provide electricity at the point nearest to location after getting application as per Annexure-A; licensee is required to undertake electrical work for extension of power from nominated source and as per cable layout plan released by Electrical O&M at the time of load sanction under DMRC supervision and complying all coded provisions listed DMRC specifications as per Annexure-B, & upon payment of requisite fees of Rs.10,000/- per feeder (one feeder with energy meter).

5. DMRC provides power supply up to leased premises on chargeable basis. Subject to completion of following work by the Licensee:

   - Supply and laying of cable including end termination of suitable size (rating suitable for allowable electric load) FRLS for RC section and LSZH cable for UG section (from source to nearest point) as per standard specifications.
   - Supply and fixing of meter box, energy meter with all necessary electrical safety equipment.
   - Licensee shall extend power supply from this Meter box at his own cost and work will be done by electrical contractor having a valid Electrical contractor certificate issued by Govt. of Delhi and NCR and shall provide installation last report as per Annexure-B. Please find attached list of approved makes and specifications to be complied for carrying out electrical works inside leased premises, Annexure-C. Licensee is also required to comply with necessary provision for fire safety in accordance with stipulations attached at Annexure-E. The work executed by licensee shall be inspected by DMRC representative for ensuring compliance of specifications / stipulations of contract.

6. At the end of the contract (pre-mature surrender/termination, natural completion, etc.) all cable, energy meter, can be taken back by licensee without damaging any of the connected DMRC accessories i.e. cable trays, and false ceiling etc.

7. Power supply for fitment of leased area: If licensee desires, they may seek an electrical connection for carrying out fitment of leased area only for limited period. Electrical O&M at its own cost shall provide a connection of 2KW each for every 100 sqm. of leased area in the lease premises at the total cost of Rs.2,500/- per seven days. This arrangement shall have provision of load limitation of 2KW only and the consumption shall be monitored and in the
likely case of excess consumption, separate demand shall be raised and extra demand shall be calculated Rs.1250/- per KW for per week. Licensee may request for this connection to Electrical O&M through concerned controlling department.

8. Permanent connection for giving the load as required by the Licensee is subject to availability of spare load to DMRC shall be given after ensuring all safety compliance and completion of electrical and fire safety works as per Annexure- E in leased premises in all respect i.e. complying to the necessary stipulations as specified in these documents, other relevant contract documents, applicable standards and ensuring that work executed by licensee is aesthetically pleasant. Format of application for electric connection and lists of documents required is attached at Annexure-A.
